

## Subject Leader - Mrs J. Connolly

In Marsh Green Primary School, History teaching aims to encourage pupils to:

- Develop an interest in the past, understand human achievements and learn about major issues and events in local, British and world history.
- Develop knowledge of chronology, together with an understanding of the similarities and differences between historical periods and that change and progress are not necessarily the same.
- Understand that people's actions are influenced by their attitudes and values and that these change over time.
- Appreciate and explain causes of historical events.
- Understand the nature of evidence by emphasising history as a process of enquiry, developing a range of historical skills and reinforcing that historical explanation is provisional, debatable and open to different interpretation.
- Develop their knowledge and understanding of other countries and cultures.
- Develop an understanding of roles and relationships within different social and economic groups.
- Develop key skills for learning across the curriculum.
