Computing

Marsh Green Primary School

What is computing?

KS1 – Computing is using technology and digital devices safely.

KS2 – Computing is the study of computer science, including algorithms and programming and an awareness of online safety.

Achieve, Believe & Celebrate

ICT- 11.11.24

Today in Year 1 Wagtails we had our first ever ICT lesson and we loved it! We learnt how to log onto a computer using our own log in detail's. We learnt how to navigate google, use the keyboard and mouse pad.

We used the mouse to drag and match the pictures. We had so much fun. We have also used the mouse to creature our very own picture.

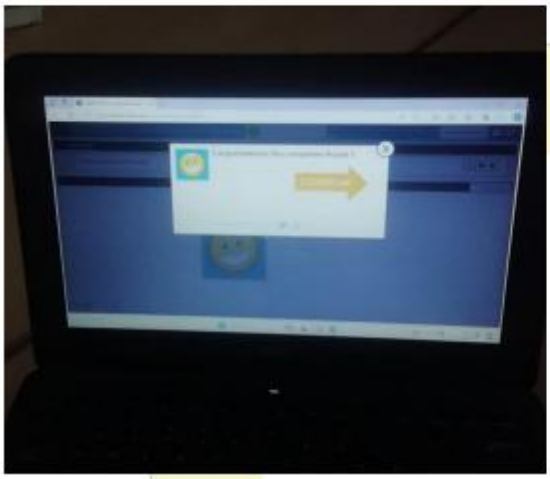
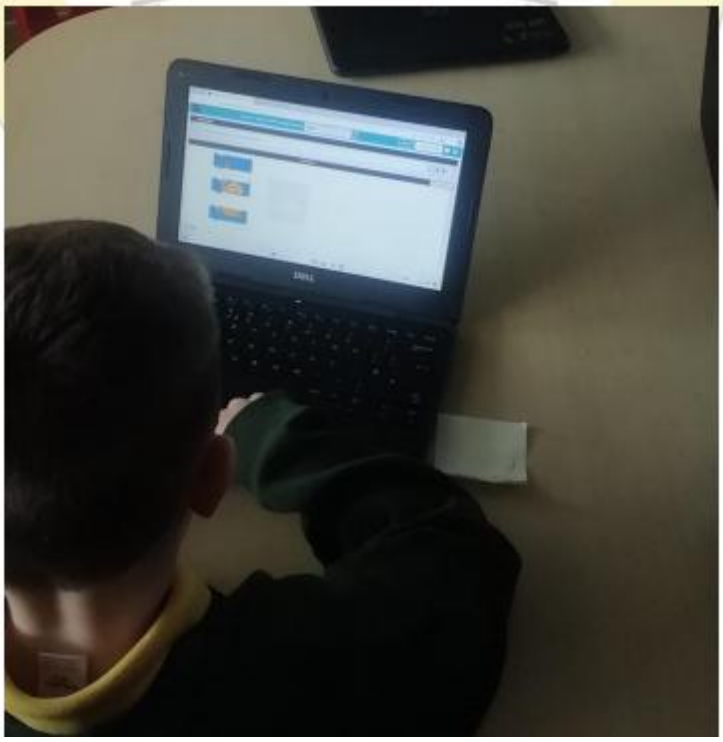
Computing – 19th November 2024

Mouse/trackpad skills

We worked in partners to develop our trackpad skills by completing a range of drag and drop puzzles.





Lesson 1 – 3 What is IT, what is IT in school, IT in the world Year 2 have been looking at IT in the world and that IT isn't just an iPad or computer. We also looked at barcodes and how we can scan

these in to find out information about a product. The develop our IT skills we had a refresher on logging on and logging off then we have re sized images following step by step instructions.

Lesson 3 – painting with the track pad.

We painted our own rainbows and flowers on the laptop, using the skills we learnt last week.

Computing

Networks

Year 4 Falcons

We acted out the role of different networks

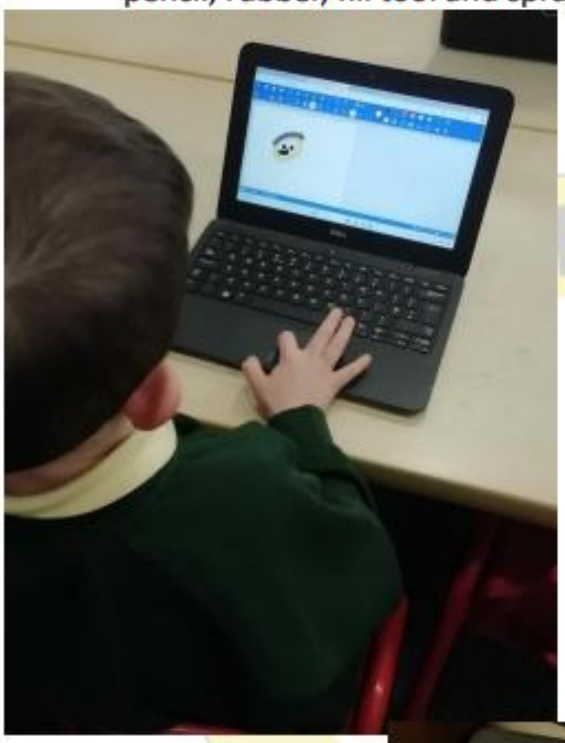
together to send and receive

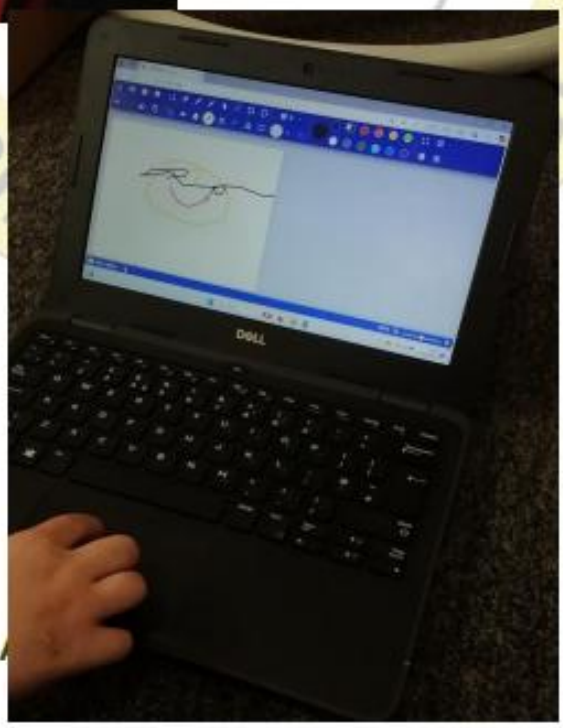
Hadi played the role of the router and passed messages from different networks, such as hospital, school and the office via the switch. Each of the networks had a switch.

The switches delivered the messages from their networks, where Hadi (the router) then had to organise them into networks and deliver them to the relevant networks and switches.

Achieve, Believe & Celebrate

Digital painting in Year 1 Swallows – we learnt how to use different tools to paint our own self-portraits. We looked at the paintbrush, pencil, rubber, fill tool and spray can.





Computing - Editing

In Computing we used photo editing software to change pictures. We had to change the colour and brightness. We even learned how to add text!
