

Science- 18.11.24

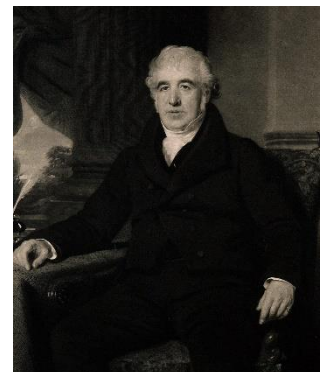

Today in Year 1 Wagtails we have been learning about waterproof materials. We did an experiment to find out which material would be the best to use for an umbrella. After the experiment we found out that plastic was waterproof and the best material to use for an umbrella!

We then did some research about how waterproof materials were made. We found that a man called Charles Macintosh invented waterproof coats.

Did you know?

Mac coats are called Macintosh' after Charles Macintosh.
