

## History-28.11.24

In History we have been learning about toys in the past and Present. We became history detectives and looked at some old and new toys. We found out that old toys are made from wood and new toys are made from plastic. We looked at a timeline of toys from the 1960's all the way up to 2010.

One of our tasks was to find out some information about toys in the past. We had Miss McGovern come into our class and we asked Miss McGovern some questions like What toys did you play with when you was younger? Miss McGovern brought in a cassette player to show us how it worked and how music used to be played in the past.
