

Marsh Green Primary School

Headteacher - Mrs G Leigh :: Deputy Headteacher - Mr C Todd

Science Investigation – Tooth Decay
Which drink will cause the most damage?

First, we decided on the drinks we wanted to test.

Coca-cola, Vimto, Orange juice and water.

Then, we accurately measured out the same amount of liquid to make sure the test was fair.

Finally, it's time to drop the eggs into the liquid.

We used eggs because the shell is very similar to the enamel on our teeth.

We are going to leave the eggs for 1 week and see what happens.
