

Marsh Green Primary School

'Our Curriculum'

Intent

In delivering our curriculum we aim to remove any barriers to learning so ALL children are able to make progress across the whole school curriculum, within a secure and caring environment. Our intention is to enable our children to become enthusiastic, confident, aspirational and successfully independent learners. We aim to develop our children's skills, knowledge and attitudes to lead rich and fulfilling lives, through a variety of opportunities and experiences.

'Achieve, Believe, Celebrate'

Implementation

Our curriculum consists of many planned experiences in and out of school eg. lessons, trips, nurture, visitors, sports, school council, clubs, class assemblies, topic days, a residential, workshops and fundraising. Outcomes are designed to meet the requirements of the National Curriculum, but also to develop the skills needed for life-long learning and interests. To ensure coverage of the curriculum we have topic days on a Friday, encouraging a cross-curricular approach.

Subjects and topics are planned to ensure progression through knowledge, skills and concepts. We want all children to retain subject content and transfer this to learning. Learning outside the classroom plays a pivotal role, breaking down barriers to learning and supporting the more vulnerable children.

Impact

The impact of our curriculum for all children can be measured both academically and personally. We strive for all our children to be resilient and achieve their maximum potential by having high expectations, an interesting, broad, relevant, progressive curriculum and good social skills; equipping them with the ability to make informed decisions and choices.

Children are assessed daily to inform their next steps of learning and teaching. Formal assessments in English, Maths and Science take place termly and individual progress is tracked and challenged by Senior Leaders, before reporting to parents.

'I will be the best that I can be.'
